Profile

Full-Stack Developer with hands-on experience building applications using JavaScript and Python. Familiar with modern frameworks including Next.js and Tailwind CSS. Currently gaining exposure to DevOps practices and cloud platforms (AWS, GCP). Eager to contribute to real-world projects while continuing to develop skills in performance optimization and clean code practices. Seeking an opportunity to gain hands-on industry experience, strengthen technical expertise, and build strong professional work ethic.

Education

University of Vavuniya   2022 - Present
BSc (Hons.) in Information Technology (Reading)

Experience

Mathru.lk
Frontend Developer (Freelance)

- Contributed to the development of a modern healthcare platform (EHR) by building and maintaining new user-facing features

- Developed a responsive, high-quality UI using React, TypeScript, and shadcn/ui

- Collaborated with a remote team using Git, participating in code reviews to ensure high-quality, maintainable code

Dynamic Biz IT Solutions
Full-stack Developer (Freelance)

- Developed and launched 8+ web applications for diverse clients, including 6 sites built with React/Next.js

- Translated complex Figma designs into responsive, pixel-perfect user interfaces using Tailwind CSS

Projects

RestroHQ   Source Code

- RestroHQ is an all-in-one SaaS solution for restaurants to manage orders, reservations, menus, customer data, and POS with ease.

xIGDLBot   Source Code

- A fun Python project built during the COVID-19 vacation to download media from Instagram without leaving Telegram.

Let Me React Source Code

- Contributed to finalizing the version 2 of Let Me React, a tool similar to create-react-app that streamlines React app development by pre-configuring essential packages.

Open Hack Day 2023 Source Code

- Leaderboard of the Hacktoberfest Open Hack Day of Sri Lanka 2023.

TechEvents Portal

- Portal for attendee registration and answer submissions for GDG Sri Lanka events.
